

When I listen to Air 1 at home or on the road my spirits are lifted. There are not many things that do that in this day and age. If it were to be displaced there would no longer be a source of complete encouragement for people to turn to while flipping through the dial. Air 1 cares for people and it is one of a few stations that is safe for the entire family to listen to. Our children are the future; I would rather that they be listening to something positive that would spur them on to do good for others. Thank you.
